Note:

Among the above brands, ATESS energy storage inverters are compatible with the Pylontech BMS protocol, and the others all use the ATESS BMS protocol.

Any other battery brand which is not listed above, the integration with ATESS inverters can be done using the BMS protocol of ATESS. In terms of function, if there are special requirements, it can be added on the basis of the ATESS standard protocol. ATESS can provide technical services to complete the function debugging.

For above listed brands, not all the models are committed to be compatible with ATESS inverters, also due to random upgrading of BMS protocols, discussion should be made between Segen, battery supplier and ATESS for each project, each party shall make modification or upgrading per the discussion and agreement among all parties.
